

Assembly instruction Matte gas hanging device

Item no. 142691

1. Turn the chair upside down so you have the metal plate visible and remove the two screws (red circle on image below) that are closest to the backrest of the chair.
2. Now you will be able to mount the hanging device between the metal rail and the metal plate, see image below.
3. Mount the hanging device using the existing screw holes with the new screws that were included in the package together with the hanging device.
4. Now you are done and ready to use your new hanging device.
