INCLUDED APPS IN MANICO FUNTABLE 3.0

Manico FunTable 3.0

The following applications are included in your Manico FunTable 3.0. Manico works to deliver their product with add-free, educational apps where children learn different subjects. Below you can read about which apps are included.

Manico FunTable 3.0 can also be installed with a lock feature which allows only the installed apps to be accessed and run on the table. With the lock function, the icons are not removable and the sound is set to fit in the public environment without disturbing the surrounding environment.

Lipa Zoo

Animals from different continents. You choose which part of the world you want to play, then press on the different animals that exist. A voice will then say what the animal is called, for example elephant. Then choose the next continent.

Lipa Ballons

Good app for language learning, available in different languages. Press the balloon, and an image appears, for example a book and the word is read. If you want to learn Swedish, you can press the word again and the Swedish word for book is read.

You can learn to say hello in many languages, for example. Good simple words.

Lipa Splash

Learn numbers by coloring different animals. Color the animals using the color representing the figure ex 1 = red.

Lipa Dots

Drag a line between numbers on a mysterious image. When you're finished, you'll see what the picture represents like a dog.
